#### E-book READERS

The Cybook Opus is the newest ebook reading device from the company that has pioneered the ebook reader market since 1998 - Bookeen. This pocket sized reader can be held in one hand and fits perfectly in any purse, briefcase or pocket! It is the lightest on the market only 5.3 ounces! Over 1000 books can be stored in its large 1 GB of internal storage memory! The Cybook Opus boasts an impressive 200dpi ePaper screen which provides a paperlike high contrast appearance and ultra-low power consumption on the revolutionary EInk Technology. With its accelerometer screen position can switch from portrait to landscape mode automatically.
